Subject: Re: CES technical call

David

Monday August 10 after 130pm works best for WBs.

John

Subject: CES technical call

EXTERNAL:

Hello – I am following up to see if next Friday morning, Aug 7 would work for State Board and CalGEM to schedule a technical call on the Clean Energy Systems Class VI project. If Friday does not work, we could do Monday the 10th. Once we pin down a date/time that works for us, I'll send invites to CARB, CalGS and our HQs folks. I expect we would have our consultant on to discuss their review to date (site characterization evaluation) and we want to hear any technical comments/issues from the state. I'm thinking 60-90 minutes. Let me know what works best.

Thanks, David
